Career Summary

AI-focused Computer Science student with strong foundations in **Java, Python, Data Structures & Algorithms**, and **OOPs**. Experienced in building **Generative AI** and **Agentic AI** applications using **LangChain, LangGraph, RAG**. Possess strong analytical and problem-solving skills with hands-on project experience, along with an adaptable mindset and a passion for learning emerging AI technologies.

Education

B.Tech Computer Science

Expected: 2027

JECRC University, Jaipur

CGPA: 8.57

Skills

Languages: Java, Python, SQL(PostgreSQL)

GenAI, LLMs & Agentic Systems: LangChain, LangGraph, OpenAI, Ollama, Groq, HuggingFace, CrewAI, RAG Pipelines

Cloud & Deployment: AWS (EC2, S3), Streamlit

Tools: Git, GitHub, Jupyter Notebook, VS Code

Experience

CEI (Celebal Excellence Intern)  Projects

May 2026 – Present

Celebal Technologies

Remote

- Optimized **ML/DL models** on real-world datasets, improving ML performance from **91% to 99% R^2** and achieving **85% CNN accuracy** on CIFAR-10.
- Developed **RNN, LSTM, and GRU** models for text generation, achieving up to **99.25% validation accuracy** over **200 epochs**.
- Built **RAG pipelines** and **Agentic AI** workflows with **LangChain** and **LangGraph**, enabling context-aware question answering and structured agent execution.

Projects

AI SQL Assistant | *Python, LangGraph, LangChain, SQLAlchemy, Streamlit, Groq, Loggers*

June 2026 – July 2026

- Developed an **Agentic AI SQL Assistant** using **LangGraph, LangChain**, and **SQLAlchemy** to query **5 SQL databases** using natural language.
- Implemented a **6-agent workflow** with schema-aware SQL generation, validation, and automatic retry to enhance query accuracy and execution reliability.
- Engineered a **modular Streamlit application** supporting dynamic database connections, conversational analytics, and exportable query results.

GraphMind | *Python, LangGraph, LangChain, Streamlit, Tools, FAISS*

March 2026 – April 2026

- Developed a **production-ready Agentic AI** platform using **LangGraph** and **LangChain**, enabling **stateful conversations** across **5+ specialized AI agents**.
- Integrated **6+ AI tools** including **Tavily, Wikipedia, ArXiv**, and **Python REPL** to deliver context-aware, real-time responses.
- Optimized AI execution with **graph caching, session memory, streaming**, and **observability**, improving scalability and maintainability of multi-agent workflows.

Certifications

- Complete **Generative AI With LangChain** – Udemy | [Certificate](#)
- Complete **Agentic AI With LangGraph and LangChain** – Udemy | [Certificate](#)

Achievements

- Solved **300+ DSA problems** on LeetCode and successfully completed the **Striver SDE Sheet**.
- Secured a **Top 50 ranking** among **400+ participants** in the **Smart India Hackathon 2025** and qualified for **Round 2** of the **Innov8 Hackathon**.
